Commonwealth of Virginia Compensation Board

Re: Assistant Commonwealth Attorney's Position

Dear Commonwealth of Virginia Compensation Board Members:

It is with deep concern that we inform you that Lunenburg County adopted the requirements of Item 70 #2c in the 2019 State Budget Bill (HB1759) requiring the County to create an assistant Commonwealth Attorney’s position to review body camera footage. The Board’s reluctance in passing this measure was not because the Commonwealth Attorney is underserving of the supplement, but it is because of the manner in which this requirement was thrust upon Lunenburg by the state.

On June 4, 2019, the Lunenburg Compensation Board received an email from the Compensation Board which was forwarded to the County Administrator informing the county that we had to create and fund this position prior to July 1, 2019. After some fruitless phone calls to get background information on this issue, the matter was inserted onto the supervisors agenda for its meeting on June 13, 2019. To say the supervisors were surprised and agitated at this directive is an understatement. The County budget had been proposed and adopted in June after months of hard work and public input, along with penny pinching measures in every department to make the budget balance. Had this been any other request, the supervisors would have ignored the request and placed it in line with other FY20 requests.

At the advice of counsel, the supervisors did not ignore the mandate but chose to study it in a hastily organized working group. What the group found were similar stories from across the Commonwealth:

- A local county which does not need the extra assistance in the Commonwealth Attorney’s office. The Commonwealth’s Attorney, in order to comply with the legislation, will create the Assistant’s position, but not fill the position. In effect, he is working around this requirement by not filling the position.
- A local county which adopted the legislation and funded a new assistant Commonwealth Attorney’s position, but the position will not take effect until January 1, 2020.
- A local county which is not involved with this legislation because there are no body cameras in use.
- A locality which has not taken any action on this. It appears that they will not take any action before July 1, 2019.
- Several small counties which considered filing the Sheriff’s department to cease using the cameras so that the County would not have to create and pay for a new Commonwealth’s Attorney position.

On June 27, 2019 the supervisors met in special session to consider our options. There was discussion about how to avoid giving credibility to the state’s never ending attempts to force measures on localities and then make them pay for something they don’t want. In the end, the supervisors voted to resolve this crisis by taking money from the public school’s budget to fund the assistant Commonwealth’s Attorney position. This will cause the county’s children to suffer because the legislature and Compensation Board failed to apply common sense and reason to resolve a perceived state-wide problem.

Lunenburg County’s complaint centers around two habitual failures of the state government: (i) lumping Lunenburg’s perceived need into the same category as larger counties and (ii) then mandating local funding to satisfy the legislature’s whims. (An additional complaint is the haphazard method of creating a local crisis by demanding that this be done by July 1 and providing no alternative to implementation).

This legislation promotes the local perception that Richmond thinks they know what we need better than we know what we need. Reviewing body camera footage may be a demanding task in larger jurisdictions, but when there are only a few cameras to review, it is nonsense to demand that a position be created for a minimal task. Giving the Commonwealth’s Attorney the option of making alternate arrangements only exacerbates the problem because the Board then has only the choice of accepting the Commonwealth Attorney’s desires or creating a full time position. Nowhere does the legislation allow the governing body’s input on the issue for which they are funding.

But worse, to create a perceived need and then force the locality to pay for something they neither want nor need is a new low. Lunenburg has a long history of quietly accepting unfunded mandates and defending those at budget time as our penitence for being subject to a state government that has become accustomed to treating rural Virginia as the proverbial red headed step child. But this 2019 budget edict borders on the absurd and is viewed by this county as the “straw that broke the camel’s back.”

The action of the legislature and the Compensation Board to create this requirement and then to spring it on a locality to be enacted within 25 days is just plain wrong. Lunenburg County did the right thing by jumping through hurdles and requesting our financial state one more time in order to accommodate the state. That being said, Lunenburg will ensure that its electorate understands the dire local consequences of the state’s moral and ethical failure to practice what it preaches.
Supervisor Bacon made a motion, seconded by Supervisor Hankins and unanimously approved, to forward the letter to the Virginia Compensation Board and state representatives.

County Attorney Rennie advised that Administration staff have recommended increasing the Conditional Use Permit Fee due to the increasing cost of advertising, researching and mailings. They have also found cases were additional fees are incurred due to larger applications requiring more research or consulting with other firms. County Attorney Rennie proposed the below fee schedule and suggested that approval of applications be contingent on the required fees being paid.

**LUNENBURG COUNTY**

**CONDITIONAL USE PERMIT FEE SCHEDULE**

_Pursuant to Lunenburg Code § 3-16_

**Application fee for Conditional Use Permit:** $400

**Additional fees and costs:**

- Applicant is responsible for paying all costs and fees that Lunenburg County incurs in processing, reviewing and presenting the application to the Lunenburg Planning Commission and the Lunenburg Board of Supervisors.

- These costs and fees may include engineering, consultants, architectural and attorney’s fees incurred by the County regarding the application. These costs and fees will be billed to the applicant and must be paid before the Conditional Use Permit will be issued.

Supervisor Bacon made a motion, seconded by Supervisor Edmonds and unanimously approved, to adopt the fee schedule as presented and require that approval of applications will be contingent on the fees being paid.

Supervisor Bacon made a motion, seconded by Supervisor Edmonds and unanimously approved, to adjourn.
